

SAND SQUIRREL OFF-ROAD DUATHLON

FEBRUARY 27, 2021

COURSE/SET-UP NOTES

Course Maps

Course routes are tentative and subject to field verification and consultation with management at Starkey Wilderness Park.

Event Parking Plan

The extent of the plan will be based upon event registrations and the recommendations of the park staff. At this point, we only have 50 participants so parking will be in the Corral Parking Lot. If the event registration increases, parking will be in the fields on the right side (south side) of the park entrance road.

Event Sanitation

Port-O-Lets will be provided for event participants. Placement (in the Corral area) will be at the direction of park management.

Event Set-up/Breakdown

Most event set-up will take place on the Friday prior to the event. Courses will be marked with flagging tape and signage.

Event break-down will occur on the same day as the event once all runners and bikers are off the course.

BIKE LEG

Dirt trail/road to paved trail. Right on paved trail to power lines. Right on power lines. Left onto Deliverance (singletrack). Cross power lines straight onto Twisted Pine (singletrack). Skip Grassy Loop. Left on dirt trail/road back to start/finish area. (course is mostly "clockwise")
